

THE

CATALOGUE

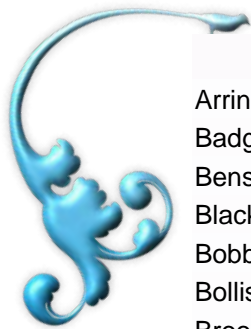

2013

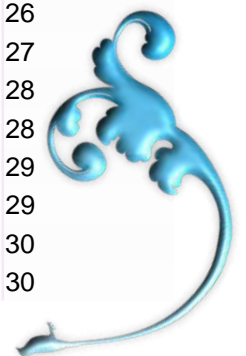

The photographs included in this book are a sample "pearls of work" that demonstrate the artistic skills by over fifty of the member photographers in the Indian River Photo Club.

Readers should always remember that judging of photographic work is very subjective. It is therefore acknowledged that there were many photographs, equally as good or even better, that were displayed and which did not meet the personal criteria of a judge on the day of selection. That does not make them inferior in any way.
